# CCHS RE-OPENING UPDATE

---

## Back To School - Options for Re-Opening

1. **Face To Face Instruction** - Instruction is delivered in person. In this setting, students will attend school as normal with safety precautions/guidelines put in place.
2. **Remote Virtual Learning** - Instruction will occur with with Central Columbia teachers utilizing the curriculum developed by our district and approved by our board. Students in this setting will work from home. Instruction will be delivered simultaneously with our face to face model and daily/period attendance will be required. This model offers the closest option to being in a normal classroom without actually being there.
3. **Online Learning Academy** - This is our full on Cyber Option. Curriculum and instruction are provided online through Edgenuity. Courses are taught by Edgenuity teachers; however, progress will be monitored by the CCHS Cyber Team.

**While we believe there is no substitute for Face to Face instruction, families will have the choice of one of the 3 options listed for their student. Please note your choice on the “enrollment choice form” found in the Parent Portal.**

---

## In-School Mitigation Efforts

- **Prior to School** - Parents must check student for symptoms of COVID-19 every morning. Parents are encouraged to keep students at home if any symptoms are present.
- **Busing and Transportation** - Masks are required while boarding, riding, and getting off the bus. Students from the same household will be expected to sit together and buses will be cleaned on a daily basis.
- **Entering the Building** - Procedures will be put in place for safe entrance into the building for both bus and car riders. These procedures will be communicated with parents, students, and staff prior to the start of school. If a student is not going to get breakfast they will report directly to their first period class. Students who are going to get breakfast will report to the cafeteria.
- **Breakfast Procedures** - Students will use hand sanitizer upon entering the cafeteria. Breakfast will be individually wrapped and served. Seating will be appropriately marked, and students will be able to sit down, remove their masks, and eat their breakfast.
- **During the School Day**
  - Classrooms and common areas will be set up to social distance to the greatest extent possible.
  - Signs will be hung throughout the building reminding students about the importance of social distancing, washing their hands, and wearing their mask in helping to stop the spread of germs.
  - High traffic and high touch surfaces will be cleaned and sanitized on a regular basis throughout the school day. A list of areas that are vacant throughout the day will be provided to the custodial staff to help create an effective and efficient schedule. All classrooms and common areas will be cleaned and sanitized every day.
  - Student desks will be arranged to facilitate social distancing in the classroom to the greatest extent possible. Class locations will be changed to accommodate larger classes.
  - Masks will need to be worn during all classes with the exception of PE (during certain parts of class), teacher provided mask breaks, and while eating. Outdoor activities and classes will be encouraged to afford students another opportunity to remove their mask.

- Bell schedule will be adjusted if needed to account for the extra time it may take to enter and exit the building, and to limit the number of students in the hallways between classes.
- Hand sanitizer and disinfectant wipes will be available throughout the school.

- **Lunch Procedures**

- Hand sanitizer will be used upon entrance and exit from the cafeteria and all alternate eating areas.

- In order to appropriately accommodate the large number of students in each lunch, we will need to split up each lunch group. The easiest way to do this is to have students who will be buying lunch eat in the cafeteria and have students who pack their lunch eat in the auxiliary gym, which will be set up as another cafeteria. Seating for lunch will be arranged to account for social distancing to the greatest extent possible and all tables will be cleaned and sanitized between each lunch.

- Lunches will be individually packaged and served.

- **Nurses Office**

- Chairs in the waiting area will be socially distanced to the greatest extent possible.
- In the event a student exhibits symptoms of COVID-19 , the student will be isolated immediately to a physically separate area. After being notified, a parent or guardian must pick their student up as soon as possible.

- **Dismissal**

- At the end of the school day, students will be expected to exit the building and go to their bus or vehicle immediately. Plans are being made to make sure that dismissal is structured to allow for social distancing to the greatest extent possible and will be communicated with students, parents, and staff.

- **Clubs and After-School Activities**

- All clubs and organizational meetings that are held in the school will be subject to the same social distancing, mask, and hand washing guidelines as during the school day.

- **Other Considerations**

- Every student will receive a washable mask provided by the school district. Parents and guardians are able to provide protective gear for their student as well.
- Floor markers will be used to show the flow of traffic in the hallways, and decals will be used to identify seats that may be used in larger common spaces.
- Students who exhibit COVID-19 symptoms or visit locations that are considered “hotspots” will need to quarantine prior to returning to school.
- Information relevant to students returning back to school will be posted on the high school website as it becomes available.
- If you have any questions please contact Mr. Comstock; High School Principal.
